Setting up Vendor

TOUCH (By Business Micro Group) For setup support call us on 0800 059 9705 TOUCH Store Vendor Dashboard 6 LOG OUT

Welcome to your Vendor account, Mr Installer

Got a question? We are offline. Leave a Message

Start creating quotes and visit your quote and enquiry dashboard 6 Setup Complete ✓

1 Company Details * Required Setup
All questions are required to proceed with Vendor.

- Email Address**: All your quote and order confirmations will be sent here.
- Website Address**: This will be displayed on your paperwork sent to your customer.
- Phone number**: This will be displayed on your paperwork sent to your customer.
- Address**: All your quote and order confirmations will be sent here.
- Logo**: This will be displayed on your dashboard, paperwork and designer.
- Registration numbers (optional)**: This will be displayed on your customer.

Setup Complete ✓ MANAGE DETAILS

2 Products * Required Setup
Activate products to populate your designers. These should be products you want to quote and survey to your customers.

32 of 32 currently active
Choose from a wide range of PVC fenestration products.

Setup Complete ✓ ACTIVATE PRODUCTS

3 Extras Setup Not Required
Create your own extras lists to cater for additional survey questions and general extra items.

Quote and Survey Designer Extras
Manage your own list of extras to show on the quote and survey designer.

CREATE/EDIT EXTRAS

4 Prices Setup Not Required
Pricing is optional but we recommend pricing is configured so quotes and website enquiries are pre-populated with your selling price.

If you do not wish to configure pricing, you can still use the 'quote my customer' feature. Read more on quote my customer.

Quote and Survey and Website Designer Pricing

If prices are configured your live selling price will be visible as you build a quote. You can also view a breakdown of your configured price. Read more on breakdowns.

Using the same pricing setup any enquiries made by a homeowner will land in your account with your selling price pre-calculated. This will not be shown to the customer live on the website.

Setup Complete ✓ SETUP PRICING

5 Add your designer to your website Setup Not Required
If you wish to generate leads via your own website simply upload the required business documents in line with GDPR Guidelines.

Business Documents
To generate enquiries online you must supply a terms and privacy policy.

Deploy my website designer
Only available once your business documents are uploaded.

Setup Complete ✓ SETUP YOUR WEBSITE DESIGNER

Vendor Setup Guide
If you need any help setting up Vendor download our intuitive guide.

Download Guide

Once you enter your new Vendor account you will be presented with the following screen, follow the steps below:

Set up steps

1. Click manage details to enter your business details, these are required to continue with Vendor.
2. You then need to choose which products you want to offer your customers with the Activate Products button. These products will then be shown on the designers.
3. Once you have completed the above steps you can then continue to:
 - a) Set up prices, these prices will allow you to live price with the quote and survey designer and any enquiries made by your customers on the website designer will land in your dashboard with your selling price pre-calculated.
 - b) Apply additions and extras to your quotes, Create your own pre-set extras lists to cater for additional survey questions, fitting and general extra items.
 - c) If you wish to generate leads via your own website simply click setup website designer and upload the required business documents, this will then give you a link to add the designer to your website.
 - c) If you skip steps 'a' and 'b' and go straight to your dashboard, there will be no live pricing on your quote and survey designer and your website designer cannot be deployed to your website.
- 1 Setup company details.
required to continue with Vendor
- 2 Setup products.
required to continue with Vendor
- 3 Add extras.
optional
- 4 Add pricing.
optional but recommended
- 5 Setting up your website designer to generate enquiries on your website.
optional but recommended
- 6 Click the button to start creating quotes and view your quote and enquiry dashboard.

Company Details

You must setup your company details first, these will be the details that are used on all paperwork and be viewable by your customers.

My Vendor Account > Company Details

To begin, we need you to enter your company contact information to be displayed to a customer.

Email Address *

lee@businessmicros.co.uk

All your quote and order confirmations will be sent here.

Website address *

https:// www.businessmicros.co.uk

This will be displayed on your paperwork that will be sent to a customer.

Phone number *

01848 330588

This will be displayed on your paperwork that will be sent to a customer.

Logo

This will be displayed on your dashboard, paperwork and designer.

Drag and drop image file
or

SELECT IMAGE

Recommended file type: Transparent PNG.
Maximum file size 1mb.
Recommended size: 440px by 220px.

Your address *

EDIT ADDRESS

Driver & Vehicle Licensing Agency, Vcs V5s, Driver & Vehicle Driving Centre,
Swansea, West Glamorgan, SA99 1BA

This will be displayed on your paperwork that will be sent to a customer.

Would you like to apply a tax rate to your quotes?

No Yes

Company Registration Number

1234

This will be displayed on your paperwork that will be sent to a customer.

VAT Registration Number

1234

This will be displayed on your paperwork that will be sent to a customer.

FENSA Registration Number

1234

This will be displayed on your paperwork that will be sent to a customer.

1

Website address

This will be the website address that is used on your Web Designer to direct your customers back to your website after completing their designs. It will also be used on the paperwork produced by your Web Designer and Quote & Survey Designer.

2

Logo

You will need to upload your company logo; this will be displayed on your Web Designer and on any paperwork produced by your Web Designer and Quote & Survey Designer. If you don't have a logo, your company name will appear in its place.

3

Add tax to your quotations

Choose to add a tax rate to your quotes, once 'yes' is selected a free type box will open to allow you to add a percentage tax rate.

4

Fensa, VAT, Company Registration numbers

These fields are optional and allow you to input your various registration numbers, which will be displayed on the paperwork produced by your Web Designer and Quote & Survey Designer.

Your products

Select from a wide range of PVC, Aluminium and Timber products. Products can be turned on and off depending on the products you want to sell and show in both designers.

My Vendor Account > Products

Select which products you sell from the list below, these will then be shown on your sales and survey interface and your website designer.

2 SELECT ALL

 PVC Chamfered Bow <input checked="" type="checkbox"/>	 PVC Chamfered Bay <input checked="" type="checkbox"/>	 PVC Chamfered Door <input checked="" type="checkbox"/>	 PVC Composite Door <input checked="" type="checkbox"/>
 PVC Sculptured Door <input checked="" type="checkbox"/>	 PVC Sculptured French Door <input checked="" type="checkbox"/>	 PVC Chamfered French Door <input checked="" type="checkbox"/>	 PVC Chamfered Tilt & Turn <input checked="" type="checkbox"/>
 PVC Sculptured Casement <input checked="" type="checkbox"/>	 PVC Chamfered Casement <input checked="" type="checkbox"/>	 PVC Patio Door <input checked="" type="checkbox"/>	 PVC Bi-fold Door <input checked="" type="checkbox"/>

1 Select a product

Simply select the check boxes to activate and de-activate a product. These can be changed at anytime to always stay up to date with your range. Remember to save after you make a change.

Products include:

Upvc Products

- Composite Doors
- Casement Windows
- Flush Sash Windows
- Tilt & Turn Windows
- Vertical Sliding Windows
- Bay Windows
- Bow Windows
- Single Doors
- French Doors
- Bi Folding Door
- Sliding Patio Door

Timber Products

- Casement Windows
- Tilt & Turn Windows
- Sash Windows
- Single Doors
- Solid Doors
- Double Doors
- Coupled Products

Aluminium Products

- Casement Windows
- Single Doors
- Double Doors
- Patio Doors
- Bi-Fold Doors

2 Select all products

If you wish to show all products to your customers click 'select all' to quickly activate all products.

Fitting Rate

Add a fitting rate this may be an hourly, daily or fixed cost that can then be calculated against the extras added below.

Fitting Rate

You will select one fitting rate for all products. This may be an hourly cost, daily cost or a fixed fitting cost you may have.

When you create an extra that relates to your fitting cost you will be able to add a multiplier. So if you've added an hourly rate, you can setup a 'Fit Door + SideLight' which you could mark as a 3 hour task.

Set enter your fitting rate.

£ 200

SAVE FITTING RATE

Extras & Fitting

Create your own extras lists to cater for additional survey questions, fitting and general extra items.

Click to add an extra

Configure many elements required for fitting such as rip-outs, scaffolding, acrow props, etc... with different rates for different product types.

EDIT EXTRA

- 1 **Manage categories**
Extras can be attributed to a category to make finding line items easier.
- 2 **Picture upload**
Upload an image to be shown alongside your extra, this will not be shown on the designer or on any paperwork.
- 3 **Name**
This is a free type field and should be relevant to your extra.
- 4 **Category**
Choose a category from your list of created categories.
- 5 **Unit of measure**
Add a unit of measure for each extra: length, width, height, area, perimeter, volume, fitting area.
- 6 **Price**
Allows you to add a price for each extra.
- 7 **Use product measurements**
This would do a calculation on the sizes added during the design process to calculate a price.
- 8 **Mark as fitting charge**
This would be added to the overall cost of the quote but not displayed on any paperwork or itemised individually.
- 9 **Pre loaded extras**
We have pre-loaded some typical extras as an example these haven't been designated a price and are set to 0. These can be removed or edited by you.

Pricing

Pricing is optional but always recommended. Adding pricing will allow you to live price using the sales and survey designer which is only visible to you. You can also turn pricing on for your website designer which will then be visible to the customer. For more info on ways to use pricing (*see page 15 for more details*)

Note: Any products that are turned off will still show in the pricing table.

- 1 Search**
Search for keywords to quickly jump to the right line item to add your sell price.
- 2 Show/Hide products**
Use the filters to turn off materials to make it easier to find the line items you are looking for. Turning off a material here will not effect the designer.
- 3 Show unpriced items**
Check this feature to show all items that have yet to be priced.
- 4 Test your pricing**
Once you have added your pricing you can then use the price breakdown calculator within the sales and survey designer by clicking the magnifying glass, as pictured in the test your pricing example.

- 5 How to setup pricing**
Alongside the pricing we have a small help guide showing how each product price is calculated. Selecting the dropdown will highlight the necessary items in the table on the left.

Click the drop down to show how each product is calculated.

How to set up pricing

Use the help box on the right, this shows you which components make up a complete product.

Set a price ...

Timber Other

Window / Tilt Turn / Single / Double Door

Your frame is calculated using:

- Outerframe Grid
- Sash Grid
- Transom / Mullion / Midrail

Then add your extra pricing:

- Colour group uplift
- Glass
- Ancillary Profiles
- Hardware

Important Information:

Retail enquiries use the following default options:

- Windows
- Small profiles
- Tilt/Turn and Doors
- Large Outerframe
- Medium Transom/Mullion

Bi Fold Door

Your frame is calculated using:

- Bifold Frame Grid
- Per Bifold Sash

Then add your extra pricing:

- Colour group uplift
- Glass
- Ancillary Profiles
- Hardware

Patio door

Your frame is calculated using:

- Patio Door Grid
- Per Patio Sash

Then add your extra pricing:

- Colour group uplift
- Glass
- Ancillary Profiles
- Hardware

Vertical Slider

Your frame is calculated using:

- Vertical Slider Grid
- Vertical Slider Sash

Then add your extra pricing:

- Colour group uplift
- Glass
- Ancillary Profiles
- Hardware

Important Information:

Retail enquiries use the following default options:

- Small Sashes

Composite Door

Your frame is calculated using:

- Frame
- Sidepanel Frame
- Transom / Midrail

Then add your extra pricing:

- Door Style / Glass
- Door Colour
- Ancillary Profiles
- Hardware

Important Information:

Retail enquiries use the following default options:

- Medium Transom

Bay and Bow

Retail enquiries use the following default options:

- Small Sashes

Website designer set up

To launch the website designer you need to upload the following documents, once this has been completed you will have access to your deployment URL.

My Vendor Account > Website Designer

1 Pricing Display

Would you like to display a live price on your website designer?

Yes No

Pricing Setup

Set up pricing now, once prices are configured your live selling price will be visible as you build a quote using the quote & survey tool and visible to your customers using the website designer.

Upload your GDPR Documents

Add your business documents below for access to your website designer link.

Name		Upload / Edit	
Terms and Conditions	http://www.bo.com	2	
Privacy Policy	http://www.bo.com	3	

4 Deploy your Website Designer

Follow the instructions below to deploy your designer to your website.

Would you like to personalise the website address where your designer will be hosted? (This is usually your company name)

select

How to deploy

- 1) Copy your designer link using the button below.
- 2) Click the 'Copy URL' button below.
- 3) Your designer will then be accessible by customers from your current website.
- 4) You can also post the copied URL on social media so people can click this to go directly to your designer.

Any updates you make to your settings will be automatically applied to the designer. If you change your URL please remember to update your website with the new URL.

<https://vendor-dev.touch.theconsultancy.co.uk/launch/select> COPY URL

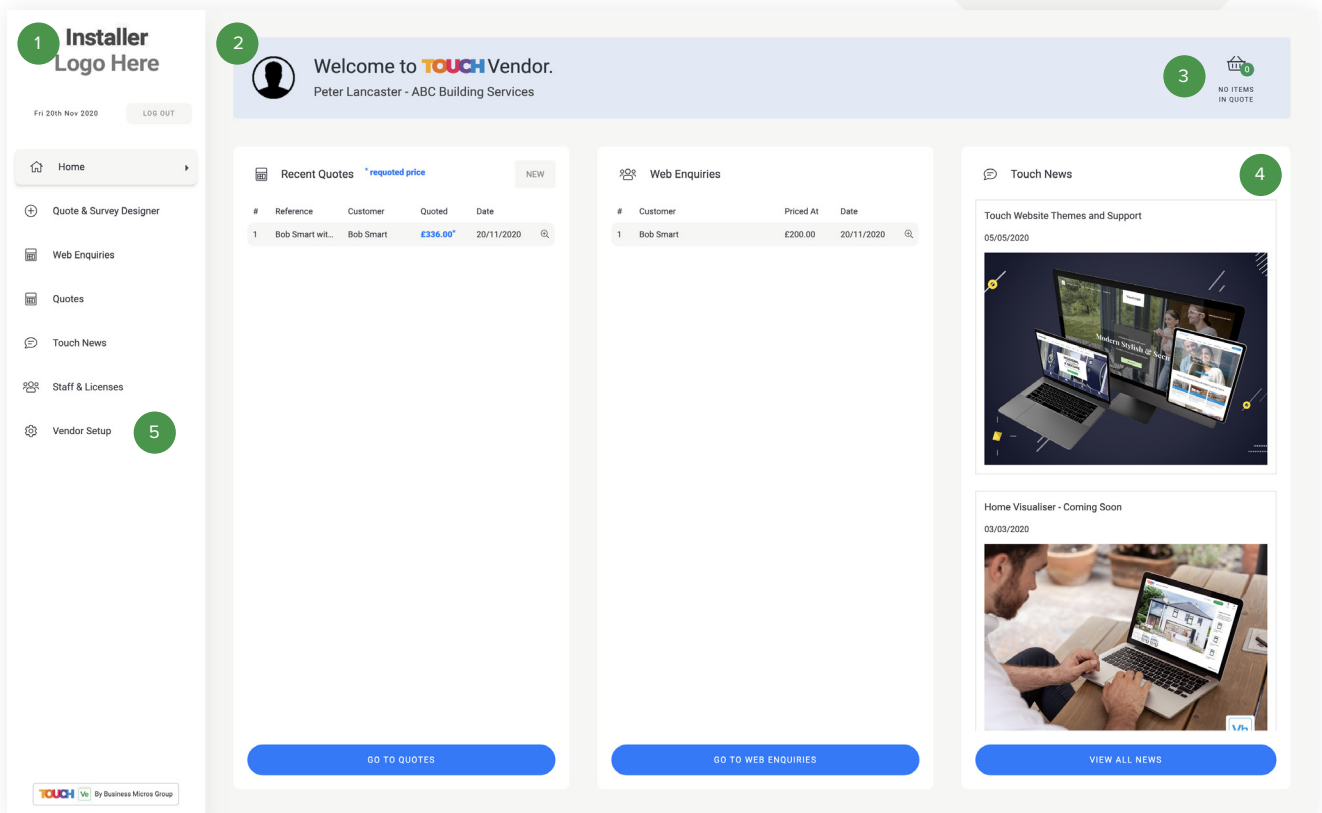

- 1 Live Pricing - Yes or No**
You have two options to set up your website designer with a live price or lead generation. If you choose live pricing the homeowner will be able to see your selling pricing, configured in the pricing section.
- 2 Terms and conditions**
Here you will need to upload a copy of your standard business Terms and Conditions, these will then be available for your customers to view when they are using your Web Designer.

- 3 Privacy policy**
Under General Data Protection Regulations you are required to display a Privacy Policy to your customers to agree to before they submit their personal information to you. This document needs to detail clearly how you plan to use and store their information, as well as information regarding their rights. The ICO provide further information on this, including a template here: ico.org.uk/for-organisations/make-your-own-privacy-notice
- 4 Deploy your website designer**
You can personalise your website address to match your company name. Once you are happy, make sure you click to Save Changes and you can then pass this URL to your website developer who can then add links to your website designer.

Vendor dashboard explained

Now you have setup your company details you will be given access to your Vendor dashboard.

1

Your company logo

The logo you uploaded in your company details will pull through onto your personalised dashboard.

2

Your avatar

Personalise your dashboard with your own avatar, this can be uploaded in the staff and licenses section.

3

Basket

Need to jump back to a quote? We will store your quote for quick access from your dashboard.

4

TOUCH News

Look out for more product releases and all the latest news from TOUCH and the TOUCH Store.

5

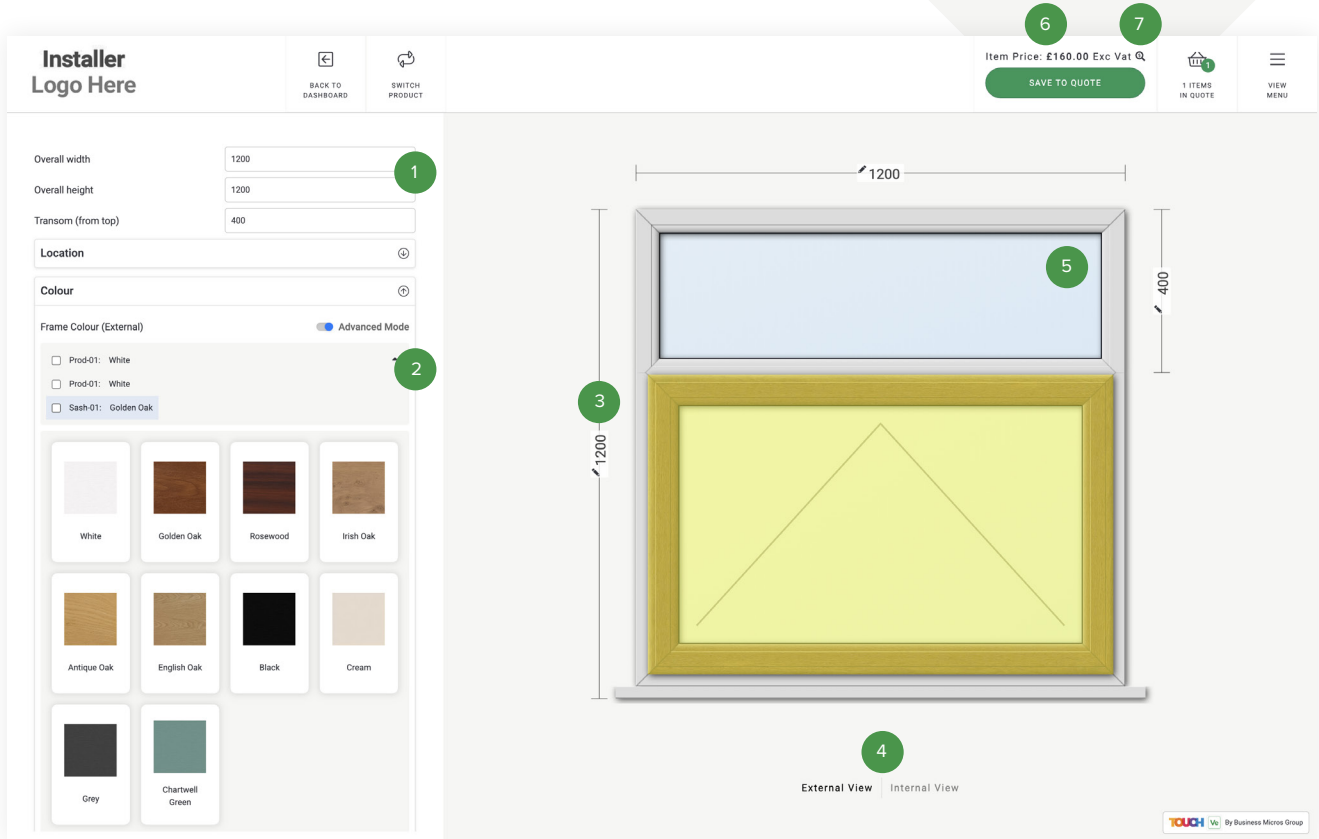

Vendor Setup

If you wish to edit any of your company details, product range, prices or your website interface settings, click the vendor setup button.

Sales and survey designer explained

This designer allows you to generate detailed quotes for your customers with more technical options and pricing if you have chosen to set this up.

- 1 Detailed product questions**
The sales and survey designer comes with a comprehensive list of technical questions, including measurements, glass, hardware, cills, vents and much more.
- 2 Advanced mode**
Advanced mode allows you to separately configure sections of your product with different colours, glass etc.
- 3 Measurements**
Quick access to edit measurements with the product render automatically updating in scale.
- 4 Switch views**
Switch the view of the product to view the inside, outside and plan view (plan view only available for bi fold doors and bay/bow windows).

- 5 High resolution, accurate product imagery**
All products are based on standard fenestration products, giving homeowners a realistic look at the products they want to buy.
- 6 Live pricing**
As each and every option is chosen your price will automatically update to show your sales price.
- 7 Price Calculation Breakdown**
Once you have added your pricing you can then use the price breakdown calculator within the sales and survey designer by clicking the magnifying glass. This allows you to test your pricing and edit as applicable.

Quotes

This is where any converted enquiries and quotes will show.

- 1 Quote list**
All quotes that are created will land here along with any enquiries that are converted to a quote.
- 2 Quote details**
All details of the quote will be listed here including editable status, customer details, price if added via vendor setup, product summary and an internal and external view of the product.
- 3 Download survey sheet**
If you wish to carry out a survey, you can download and print a copy of the quote to add technical details. These can then be added to the quote via the edit button.
- 4 Duplicate**
You can duplicate the same quote to allow you to make slight amendments and then send this back to the customer. Ideal if a customer wants a quote for the same product with some small amendments.
- 5 Edit**
Edit allows you to re-open the quote and make any amendments to the product specification.
- 6 Generate customer quote & adding additional prices to a quote.**
This allows you to add a price uplift to your quote, this can be added to the overall quote or to each product line item. You can also add a fitting cost. You can then download the quote with these prices to send to your customer. *(see page 15 for more details)*
- 7 Download price request**
If you wish to send a full summary of a quote to your supplier to request a price, simply click download and email a copy to your supplier.
- 8 Item price**
If you have added prices in the vendor setup section, each quote will be created with your selling price to your customer.

Website designer explained

This is the website designer which will be linked up with your own website to generate homeowner enquiries online.

- 1 Limited product questions**
To help a homeowner, questions have been limited to make the process quick and not to confuse.
- 2 Homeowner friendly thumbnails**
Large homeowner friendly thumbnails help the user to make quick choices and give the designer a friendly feel.
- 3 Easy to use interface**
Intuitive buttons guide the homeowner through the process from start to finish.
- 4 High resolution, accurate product imagery**
All products are based on standard fenestration products, giving homeowners a realistic look at the products they want to buy.
- 5 Switch views**
Switch the view of the product to view the inside, outside and plan view. You can also hide the menus to view a larger image of your chosen product.
- 6 Multi product basket**
Homeowners can add multiple quantities and products to a single basket allowing you to quote for multiple products.
- 7 Optional live pricing**
Turn pricing on and off to allow homeowners to see your selling price live.

Website enquiries

This is where any enquiries made through your website designer will land.

1

Website enquiries list

All enquiries that are made through your Vendor website designer will land here.

2

Website enquiry details

All details of the enquiry will be listed here including status, customer details, price if added via vendor setup, product summary and an internal and external view of the product.

3

Download survey sheet

If you wish to carry out a survey, you can download and print a copy of the enquiry to add technical details. These can then be added to the system once you have converted the enquiry to a quote.

4

Convert to quote

You can convert the enquiry to a quote to edit, duplicate, generate a customer quote PDF or download a price request PDF.

5

Item price

If you have added prices in the vendor setup section, each enquiry will come through with a selling price to your customer. This price can be edited once converted to a quote. The customer will not have seen this price.

Ways to price

No pricing

1. create a quote/convert an enquiry to a quote
2. download price request pdf
3. email to supplier for a price
4. generate customer quote - add override price
5. email to customer

Price on Sales & survey designer (this should be the price you want to sell to your customers)

1. go to vendor setup
2. complete pricing setup - any new quotes created will display a live price
3. test pricing - green help box to the right of pricing page
4. create a quote with live price
5. generate customer quote - add override price if needed
6. email to customer

Price on Website designer (this will automatically use the pricing from the vendor setup)

You will need to have already setup the prices in vendor setup and tested using the sales & survey designer.

1. go to vendor setup
2. setup your website designer
3. select yes on pricing display
4. deploy your Website Designer to your website

Adding additional prices to a quote

1. go to vendor dashboard
2. go to quotes
3. select a quote
4. select generate a customer quote

Generate Customer Quote

Item	Calculated Price	Alternative Price
Fitting Price		£ 0
Item(s) Price	£160.00	£ 160

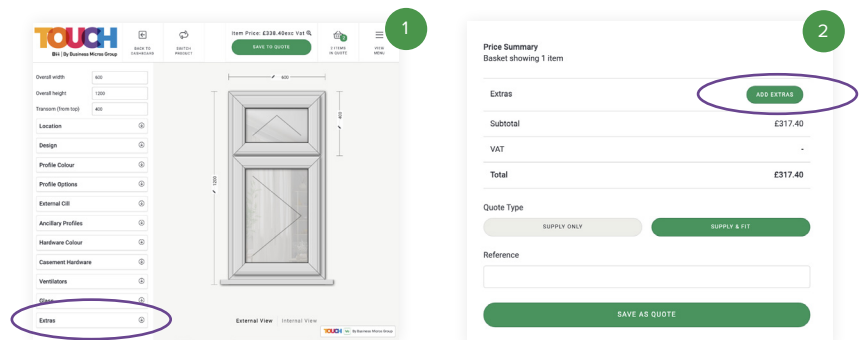

If you wish to add an uplift price to any quote, you can price each product separately or amend the total value of the quote. You can also input costs for fitting. Once you have added your costs, you can download a homeowner friendly quotation including the new costs and email this to the homeowner.

Adding extras

- 1 Adding an extra to a product**

 1. go to sales & survey designer
 2. choose a product
 3. select extras from the menu
 4. choose a pre-set extra or create a new one
- 2 Adding an extra to a quote**

 1. go to sales & survey designer
 2. choose a product
 3. save quote to your basket
 3. select add extras button
 4. choose a pre-set extra or create a new one

Staff and licenses

This section allows you to add and manage the accounts that have access to your Vendor dashboard.

- 1 Your seats**
You can add additional seats for members of your staff, so they can create and edit quotes via their own personal login.
- 2 Inactive users**
If a staff member leaves your company and/or no longer needs a login you can de-activate it from this screen and designate their seat to a new user.
- 3 Purchase more seats**
You can purchase extra seats via the TOUCH Store, simply click purchase additional seats and add seats to your subscription.
- 4 Edit user**
This allows you to add a users personal and contact details.

The 'Edit User' form contains the following fields:

- First Name ***: Peter
- Last Name ***: Lancaster
- Email ***: peter+abc@theconsultancy.co.uk
- Mobile**: (empty)
- Avatar Image**: Choose file | No file chosen
- Processing Level**: (dropdown menu)

At the bottom, there are radio buttons for 'Admin User' and 'Account Enabled', and a 'SAVE USER' button.
